DUAL ENROLLMENT ASSESSMENT TEST INFORMATION

- If a student's ACT or SAT scores are not high enough to take MATH 110 or 115, then they need to take the math assessment.
- Students have 60 minutes for Section 1 (30 questions total) and then another 60 minutes for Section 2 (Section 2 will open up with a score of 23 or higher in Section 1 and has 20 questions total).
- If a student doesn't get a high enough score on the math assessment, they will have to take either MATH 100 or MATH 110, remedial math. These remedial math courses will count for 3 college credits each but only as elective credits.
- If a student is placed into MATH 100 (Fundamentals of Mathematics) and passes it, they will then need to take MATH 110 (Intermediate Algebra).
- The math assessment can be re-taken after 1 year.
- Either an assessment test or ACT/SAT scores are needed for math placement

NOTE: for CSIS 100 (Intro to Information Sciences and Systems), the student can bypass the prerequisite of MATH 110 by being eligible for MATH 121. See *qualifications at the bottom of this page*.
